

Alice Quinn

Director, Civil Information Systems
System Modernization and Services
Northrop Grumman Technology Services

Alice Quinn is the director of Civil Information Systems Operating Unit for Northrop Grumman's Technology Services sector. Ms. Quinn oversees all areas of the Operating Unit's business, including program delivery, strategy, execution, sustainment and growth.

Ms. Quinn has over 30 years of technical and management experience in support of complex Federal, Civil, and DOD programs at Northrop Grumman. She has successfully managed service, development, and integration programs under the demanding conditions we all face today - tight schedules, limited resources, evolving requirements, and challenges encountered in integrating emerging and legacy technology. She managed portfolios of programs with the Department of Treasury, the Federal Aviation Administration, other Civilian agencies, as well as, state, local, and commercial customers.

Ms. Quinn holds a bachelor's degree in physics and chemistry from Longwood University. She has also completed business, technical and executive leadership courses at the University of Virginia, Darden Graduate School of Business and the University of Chicago, Booth School of Business.
